

I was glad for the various "field experiences" that we received. The cultural survey trip, the time spent watching Samuel minister to the the Konkomba churches, even time in the markets of Tamale, was all very good for one who had never left the States before. These are the kinds of things I wanted to have a taste of before being stationed on the field for any length of time, and I think you did an excellent job of giving us just such a taste alongside the school schedule we had. Some of the assignments were a bit stretching, especially the cultural survey trip, but I really appreciated being nudged out of my comfort zone.

The Story of His Glory also deepened and broadened my understanding of the missionary thrust of the whole Bible. Taking that extended period of time to consider missions related passages and concepts from all over the scriptures really helped to pull my somewhat fragmented knowledge of missions in the Bible together into a cohesive unit. I can honestly say now that I can hardly read the Bible or hear it read without observing something that has direct or indirect bearing on world mission.

SENT School served to solidify my vision for and theology of missions, fan the flame of missionary zeal in my heart, spur me on to more urgent pursuit of mission involvement as soon as the Lord opens the doors, and prepare me to some degree for what I will find on the other side of those doors. I deeply appreciate the opportunities we were given at SENT and would recommend the experience to any other youth I knew was interested in missions or finding God's will for his life.
